Subject: Meeting minutes from CMP-NECEC

We should not let our response to the meeting minutes slip. Can you share with each other your notes from that meeting? Also please indicate whether your thought they were accurate and identify areas where you feel they are not. (I will transcribe mine and send them around.) Given the sensitivity of the project we should be sure to be responsive.

Mike – please let us know after you speak to Ann about cumulative impacts and how she thinks we should be responding. We should meet on where we are with all of this on Wednesday.

Thanks,
Jackie
